WORK EXPERIENCE

01/07/2018–Present

Manager Software Development Unit

Developing and maintenance Web & Desktop Applications

- Analysing,
- Designing, Coding, Implementing , Testing Software Applications
- Maintaining Software Applications

Technologies: .Net, C#, MVC, MS SQL Server, CSS, JavaScript, jQuery

01/12/2016–30/06/2018

Software and Database Developer Specialist

Developing and maintenance Web & Desktop Applications

- Analyzing,
- Designing, Coding, Implementing , Testing Software Applications
- Maintaining Software Applications
- Implementing new Core banking system for KEP Trust,
- Preparing Data Migration

Technologies: .Net, C#, MVC, MS SQL Server, CSS, JavaScript, jQuery

01/12/2015–30/11/2016

Business Solutions Specialist

Converting business needs into IT Data requirements

- Analysing software development needs in IT system and preparing analysis document that includes all specifications and meets requirements for development
- Testing the changes
- Informing and training users about new applications/changes
- Finding solutions for the problems occurred in core banking system or other software
- Working with partners to provide solutions for user needs

10/03/2014–30/11/2015

Software and Database Developer

Developing and maintenance Web & Desktop Applications

- Analyzing,
- Designing, Coding, Implementing , Testing Software Applications
- Maintaining Software Applications

Technologies: .Net, C#, MVC, MS SQL Server, CSS, JavaScript, jQuery

01/10/2012–Present	Teaching Assistant

Subjects: Object Oriented Programming, Advanced Software Engineering, IT Project

- Preparing exercises for relevant subjects,
- Assisting in exams,
- Collaboration with students

01/03/2011–30/09/2012	Teaching Assistant

Subjects: Algorithm and Data Structure, Advanced Software Engineering, IT Project

- Preparing exercises for relevant subjects,
- Assisting in exams,
- Collaboration with students

01/10/2012–31/03/2014	Software Developer

Developing MIS (Managing Information Student) for RIINVEST University

This application is developed in three layers.

Frontend (GUI) is developed in asp.net and designed with CSS and Javascript

The Database built on SQL Server 2012, where are created the tables, stored procedures, functions, triggers and views,

Middle layer (Communication layer) between database and GUI is developed in c #

Responsible for:

- Designing
- Development,
- Testing
- Software Installation

01/06/2011–30/06/2012	Software Developer

Developing FADN Software for Ministry of Agriculture

This application is developed in three layers

Frontend (GUI) is developed in .net windows bases with C#

The Database built on SQL Server 2008, where are created the tables, stored procedures, functions, triggers and views,

Middle layer (Communication layer) between database and GUI is developed in C#

Responsible for:

- Designing
- Development,
- Testing
- Software Installation

01/05/2009–30/05/2011	**Software Developer**

Developing RIBALANCE Software for Ministry of Energy and Mining

The front end (GUI) is developed in .net windows bases with c#, the Database built on Microsoft SQL Server 2008, where are created the tables, stored procedures, functions, triggers and views,

Middle layer (Communication layer) between database and GUI is developed in c #

Responsible for:

- Designing
- Development,
- Testing
- Software Installation

01/03/2011–30/09/2012	**IT Administrator**

- Configuration and Installation of hardware and software
- Troubleshooting of computers connection to the LAN
- Carrying out PC hardware and software maintenance
- Providing users with general IT support
- Providing software support for Microsoft Office Applications (Word, Excel, Power Point, Photo Editor), WinZip, Acrobat Reader etc.
- Managing works and eliminate problems that appears
- Installing operating system of Windows, drivers, different programs, MS Office, antivirus and other applications that were necessary

01/09/2007–20/12/2009	**Surveyors and Database Manager in Statistic Projects**

- Work with different groups, genders, ethnic and religious inside in Republic of Kosovo
- Detail inspection for investigation that were realized
- Designing of Database for research projects
- Entrance data of investigation in PC
- Managing data from different projects

01/04/2006–30/06/2007	**IT Officer (Internet Caffe)**

- Configuration and Installation of hardware and software
- Troubleshooting of computers connection to the LAN
- Carrying out PC hardware and software maintenance
- Providing users with general IT support
- Providing software support for Microsoft Office Applications (Word, Excel, Power Point, Photo Editor), WinZip, Acrobat Reader etc.
- Managing works and eliminate problems that appears
- Installing operating system of Windows, drivers, different programs, MS Office, antivirus and other applications that were necessary

| 01/02/2005–31/03/2006 | Supervisor and Seller |

- Orders, purchase and sale of various products
